Tutor | Cypress Bay Highschool

Weston, FL | 2020-2022

- Provided computer science course tutoring to students
- Modified learning and communication techniques for individual ne
- Collaborated with professors to comprehend course expectations

Evoke Solutions, Sklar Furnishings | Website Development Intern

Boca Raton, FL | June 2020

- Redesigned a website with the purpose of enhancing user experience
 - Harvested product specifications using a Web-crawler
-

PROJECTS

Natten, Founder/CEO

April 2023 - Present

- Built and managed team of software engineers
- Project management using scrum development process

Food Delivery Simulation

December 2022

- Simulated a restaurant delivery service
- Drafted and implemented a software testing plan
- Adapted an agile development process
- Wrote detailed documentation and manual on completion
- Developed using Java

Chest Logger

June 2022

- Inventory management software
- Data encapsulation using an object-oriented design
- Implemented standard security procedures to protect user data
- Developed using Java and Spigot API

Go2DaMoon

December 2021

- Processed 7 million lines of lunar data from NASA
- Rendered a photo realistic image of the terrain of the moon
- Calculated height, slope, and depth for lunar coordinates
- Developed using Python with a data-parser in C++

FlashRPG

November 2021

- Lead a team of 5 developers to create an educational flash card game
- Managed and organized a large repository using Git
- Adapted scrum development process
- Developed using Python

SKILLS

Programming/Scripting Languages: Java, C/C++, Python

Web Development: Flask, React, Next, Vite, Javascript, Typescript, HTML/CSS

Operating Systems: Proficient in Linux (Gentoo, Arch, Ubuntu), Windows 10/11, MacOS

Technology: Git, Bash, CMake, Docker
